"The office with the White Face"

He goes on to explain that in this as in all other cases the gifts to the University were the result of the presentation of its needs made in writing by the officers of the University, whose special duty it is to prepare its budgets and superintend its finances. It is not personal interviews and impassioned appeals, but sound and justifying worth that should attract and secure the funds of philanthropy. The people in great unknown numbers are constantly importuning me for personal interviews in behalf of favorite causes, but I am supposing that the interview, were it possible, is the best way, or even a good way of securing what they want."

In the course of his article, Mr. Rockefeller says of himself: "Criticism that is deliberate, sober and fair is always valuable and it should be welcomed by all who desire progress. I have had at least my full share of adverse criticism, but I can truly say that it has not embittered me, nor left me with any harsh feeling against a living soul. Nor do I wish to be critical of those whose conscientious judgment, frankly expressed differs from my own. No matter how noisy the pessimists may be, we know that the

world is getting better steadily and rapidly, and that it is a good thing to remember in our moments of depression or humiliation."

The fire alarm at 6:30 last night was sent on account of a blaze in the water-closets at the rear of the Ullery undertaking rooms, or the old stand of the W. W. Ogle store. The closet has four rooms and one of them was filled with excelsior. In some unknown way the excelsior caught fire and the building was soon burning briskly. The department saved the structure with little loss.

A dainty SOROSIS kid dress shoe and a fine kid glove are made from practically the same leather, only tanned differently.

Foreign-made gloves sell in this country at higher prices than domestic. Women think the quality is worth the difference in price.

In Europe the people gladly pay a premium for SOROSIS Shoes. In England the price is \$4.00 per pair; in Germany \$4.50; in Canada \$4.50; Russia and France \$5.00. Everywhere in the United States the price for nearly every style is \$3.50 and \$4.00.

Do you suppose the best judges of shoes and gloves in the world would pay a higher price for SOROSIS if they did not know it was worth it?

Nearly one-third of the immense SOROSIS product is sold abroad.

If the women of this country only knew how good SOROSIS Shoes are, we could never supply the demand.
